

**INTENSIVE,
GUIDED
ON-TRACK
E-KART
EXPERIENCE
AGES 6 - 12**

TOTAL ⚡
KARTING ZERO
ENGINEERED BY ROB SMEDLEY

HOW DOES IT WORK?

Drivers build their on-track experience, knowledge and confidence through an intensive day(s) course. The programme is split into two:

Spark Lite gets to grips with the basics of being in a kart, controlling a kart and track safety for those with no previous driving experience.

Spark X advances drivers basic knowledge into more technical racing knowledge, preparing them for safe racing on track.

Drivers will be provided with race suit, helmet and equipment! All lessons are a combination of pit lane and track time at some of the best UK tracks.

SPARK LITE

£325

For drivers with no previous track or driving experience, to develop into Spark X, or just to try out karting in a controlled environment.

SPARK X

£325

For drivers with previous driving experience, or who have completed SPARK LITE, essential track learning for kart racing.

SPARK LITE + SPARK X

£600

Book both at once and go from no experience to race-ready, upon successful completion!

SPARK LITE

For drivers with no previous track or driving experience, to develop into Spark X, or just to try out karting in a more controlled environment.

WHAT TO EXPECT

The programme's aim is to introduce new drivers to the sport, whether your aspiration is racing or just trying a new hobby! We'll teach the basics of operating and driving a kart safely.

In these sessions, we emphasise building confidence and having fun. The programme is split into 3 sessions, which adopt interactive methods of education to capture the children's attention. Their knowledge is put to practice on track, at controlled speeds which are guided by our team.

WHAT WILL BE COVERED

1. Instructor Briefing
2. Programme Overview
3. Circuit Inspection (Track walk and diagram)
4. Safety equipment
5. Getting in and out of the kart
6. Kart controls
7. Event rules
8. Staying inside the kart - Protection for the driver
9. Entering and leaving the circuit
10. Pit lane safety
11. Hand signals
12. Flags

TOTAL 
KARTING ZERO
ENGINEERED BY ROB SMEDLEY

SPARK LITE

For drivers with no previous track or driving experience, to develop into Spark X, or just to try out karting in a more controlled environment.

LESSON 1

- Kart Controls
- Safety Procedures
- Signals
- Flags
- Driving Standard
- Driving Techniques
- Braking

LESSON 2

- Concept of the Racing Line
- Correct Cornering Techniques
- Practicing Racing Lines
- Practicing Cornering Techniques
- Practicing understanding of Hand Signals and Flags
- Braking

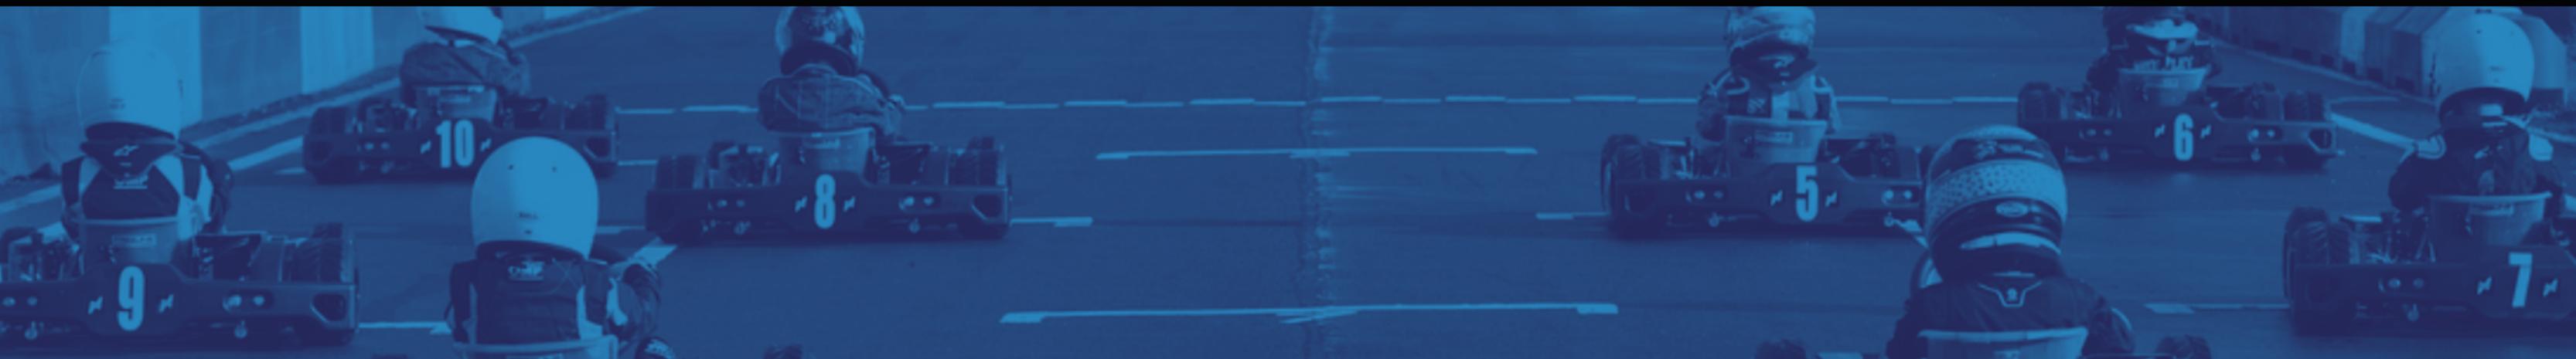

LESSON 3

- Timed laps putting to practice learnings from Lesson 1 and 2.
- Braking

SPARK X

For drivers with previous driving experience, or who have completed SPARK LITE, essential track learning for kart racing.

WHAT TO EXPECT

The programme's aim is to continue the development of drivers from the Sparks Lite programme or drivers that have some commercial basic driving experience, and wish to progress onto kart racing.

The sessions cover the essentials needed for racing electric karts on track.

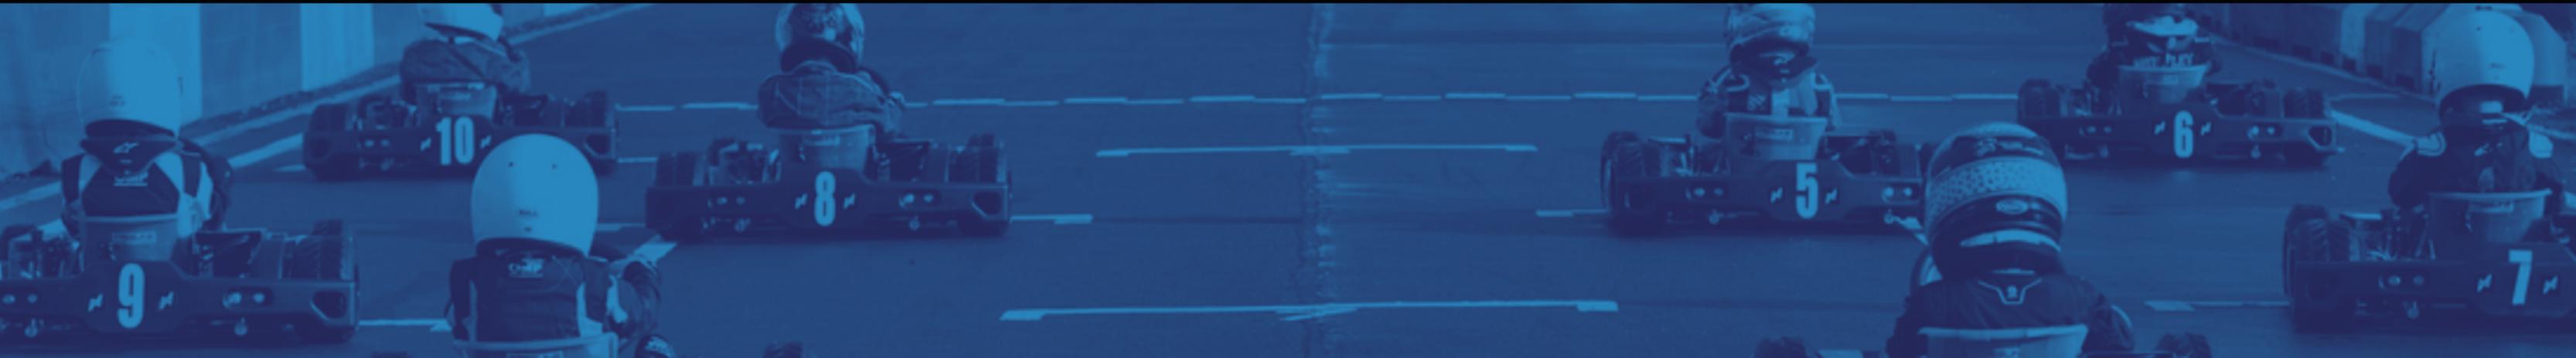

WHAT WILL BE COVERED

1. Instructor Briefing, refresher of the circuit
2. Programme Overview
3. Circuit Inspection (Track walk, diagram, racing lines)
4. Safety equipment
5. Getting in and out of the kart refresher
6. Event rules
7. Entering and leaving the circuit refresher
10. Pit lane safety refresher
11. Hand signals
12. Flags refresher and extended

SPARK X

For drivers with previous driving experience, or who have completed SPARK LITE, essential track learning for kart racing.

LESSON 4

- Driving Lines theory
- Apex theory
- Cornering theory
- Flags Q&A
- Refresher: Kart Operation
- Refresher: Getting in/out of kart
- Entering/Exiting Pit Lane
- Braking

LESSON 5

- Concept of the Racing Line
- Correct Cornering Techniques
- Practicing Racing Lines
- Practicing Cornering Techniques
- Marking Homework
- Overtaking safely
- Competence Assessment
- Braking

LESSON 6

- What to expect at a race meeting
- How a race meeting is structured
- Who attends a race meeting
- Driving standards
- Introducing 'Race and Respect'
- Braking
- Completed with a standing-start race on the circuit
